THE COMPANY

Our History

Boreal was founded on the principles of craftsmanship, integrity, and a deep respect for design excellence. With decades of combined experience in commercial construction and architectural manufacturing, we saw a need in the market for premium wood products that seamlessly blend aesthetic appeal with long-lasting performance.

Rooted in Canada and proudly manufacturing locally, our journey began with a vision to elevate architectural standards—one product at a time. What started as a passion project quickly grew into a trusted brand known for its precision, reliability, and attention to detail.

Our Vision

Our vision is to be the benchmark in architectural product design and manufacturing across North America. We aim to lead the industry through innovation, design-forward thinking, and a commitment to sustainability. We believe that great spaces begin with great materials—and that every door, panel, and detail contributes to the bigger picture. By pushing the boundaries of traditional craftsmanship and embracing modern technologies, we strive to inspire the spaces where people work, live, and connect.

Our Mission

Our mission is to manufacture premium-grade architectural products that empower designers, architects, and builders to bring their visions to life. We're committed to delivering exceptional quality, durability, and design flexibility through every item we produce. Whether it's a custom wood door, a high-performance wall panel, or a specialty partition system, our goal is to offer solutions that combine form and function without compromise. Through continuous improvement and close collaboration with our partners, we ensure that every project we contribute to is built to stand out—and built to last.

Who We Are

Boreal Architectural is a premium Canadian manufacturer of architectural wood products — specializing in custom wood doors, wall panel systems, toilet partitions, and more. With a focus on quality craftsmanship and design precision, we deliver products that elevate commercial and institutional spaces.

Our Experience

With decades of combined expertise in architectural product manufacturing and commercial construction, our team understands the demands of modern design and building. We collaborate closely with architects, designers, and builders to bring their vision to life — on time, and on spec.

What Sets Us Apart

- Made in Canada with premium materials
- Advanced in-house manufacturing capabilities
- Dedicated to precision, durability, and design integrity
- Trusted by leading commercial contractors and design firms across Canada

OUR PRODUCTS

Solid Wood Doors & Frames

With a commitment to quality and innovation, we manufacture distinct finish-types: Laminate Wood Doors, Wood Veneer Doors, and Paint-Grade Wood Doors, Available in both Fire-Rated and Non-Rated core types. Our doors are designed to enhance the aesthetics and functionality of any commercial space, offering superior performance and unparalleled craftsmanship.

Wall Panels & Veneer Panelling

Crafted from premium-grade natural wood veneers, our wall panels showcase the authentic grain patterns, tonal variation, and refined aesthetics that only true wood and premium laminates can offer. Each panel is pressed over a stable core to ensure dimensional consistency, making them ideal for high-performance or luxurious interiors.

Toilet Partitions

Boreal Architectural offers a refined line of commercial toilet partition systems, crafted to meet the demands of today's modern interiors. From durable Plastic Laminate and Solid Phenolic to our signature Ultimate Privacy and Aspen Series, our solutions deliver exceptional functionality, elevated design, and superior user comfort.

Lockers & Storage

At **Boreal Architectural**, we redefine storage with our line of premium lockers and storage systems, crafted in Wood Veneer, High-Pressure Laminate (HPL), and Solid Phenolic. Designed for performance, aesthetics, and longevity, our solutions bring refined functionality to modern commercial interiors.

Architectural Wood Doors

Engineered for Excellence. Crafted for Performance.

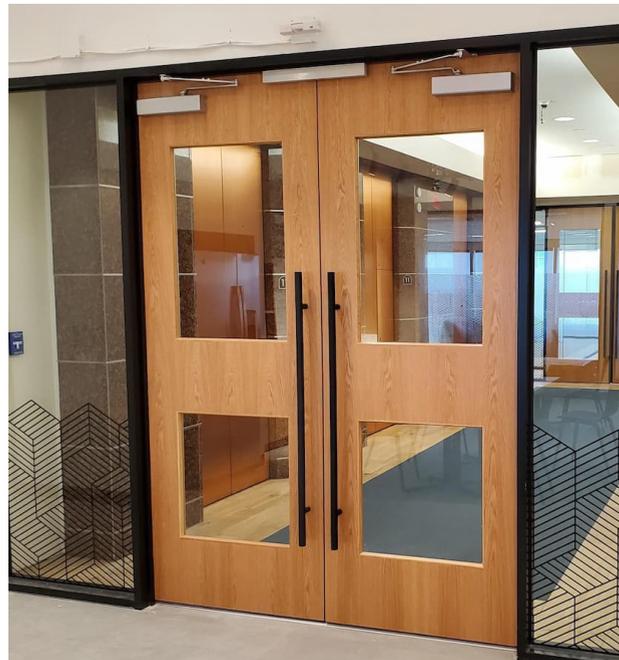

Boreal Architectural's Solid Wood Doors are the foundation of our commitment to premium architectural manufacturing. Designed for performance, elegance, and long-term durability, our doors are crafted using only the finest materials and are engineered to meet the high demands of modern commercial spaces.

Whether you choose a natural wood veneer, smooth paint-grade surface, or high-performance laminate finish, every Boreal door is constructed with precision and pride.

Door Features:

- Available in non-rated and fire-rated options (20, 45, 60, 90 min)
- Compatible with all standard and custom hardware preps
- Constructed with solid particleboard, mineral, or specialty cores
- Customizable: Vision lites, louvers, inlays, oversized options available
- Manufactured in Canada with a focus on sustainability and quality control

With multiple product lines including Timberline, Canvas, Everguard, and FireGuard+, we offer solutions tailored to every project's functional and aesthetic goals.

Canvas Series

Paint-Grade Non-Fire-Rated

A premium line of paint-grade wood doors designed for a smooth, flawless finish that brings any architectural vision to life. Perfect for custom color matching and modern interiors.

Timberline Series

Veneer Non-Fire-Rated

Crafted with natural wood veneers, the Timberline Series highlights the elegance, warmth, and texture of real wood—bringing timeless beauty and sophistication to any space.

Everguard Series

Laminate Non-Fire-Rated

Engineered for durability and performance, the Everguard Series features high-quality laminate doors built to withstand heavy use in busy commercial environments without sacrificing style.

FireGuard+ Artisan

Paint-Grade Fire-Rated

A fire-rated, paint-grade wood door collection that combines safety with clean design—ideal for refined interiors requiring both code compliance and aesthetic flexibility.

FireGuard+ Terra

Veneer Fire-Rated

Showcasing the organic beauty of real wood veneers, Fireguard+ Terra delivers exceptional fire protection without compromising on the natural warmth and character of solid wood.

FireGuard+ Endura

Laminate Fire-Rated

Built for impact resistance and lasting performance, Fireguard+ Endura pairs sleek laminate surfaces with robust fire-rated core construction—perfect for high-traffic commercial spaces.

Architectural Wood Door Frames

Uncompromising Safety. Exceptional Craftsmanship. Made in North America

Boreal Architectural's BR-F Series Wood Door Frames are designed for style, durability, and ease of installation across all commercial and institutional projects. Manufactured from premium hardwoods and shipped pre-blocked for protection, our frames are available in a variety of profiles, sizes, and fire-rated configurations to suit your exact specifications.

Boreal Architectural's BR-F Series Wood Door Frames are designed for style, durability, and ease of installation across all commercial and institutional projects. Manufactured from premium hardwoods and shipped pre-blocked for protection, our frames are available in a variety of profiles, sizes, and fire-rated configurations to suit your exact specifications.

BR-F-100 - FLAT

Streamlined Simplicity. Classic Look.

A clean, minimalist frame ideal for timeless interiors. Crafted in poplar, cherry-wood, or oak, this model is available in standard widths of 3 9/16", 4 9/16", 4 7/8" and heights of 81 5/8" or 85 5/8".

Options include: separate angle-cut casings, jamb machining, tip/dado ends, and custom widths up to 12". Other wood species available on request.

BR-F-200 - T Model

Modern Profile. Built for Performance.

Featuring a 3/4" jamb with a built-in 1/2" stop, this frame offers a sleek, architectural T-profile. Available in maple, birch, or custom hardwoods.

Supports fire ratings of 20, 45, 60, and 90 minutes (ITS/WH certified). Custom widths up to 12", hardware machining, and detailed labeling per opening or floor available.

BR-F-300 - Single Rabetted

Versatile, Durable, Customizable.

Designed for versatility and durability, this frame is standard in 1 3/16" white birch, with other species like pine, maple, or finger-jointed options available.

Supports fire ratings up to 90 minutes and wall widths up to 12". Supplied with or without casings and fully customizable to suit project specs

BR-F-400 - Double Rabetted

Double Duty. Maximum Versatility.

Engineered for dual-door openings or enhanced flexibility, the BR-F-400 offers a double rabbet profile and is standard in white birch, with other species available.

Certified for fire ratings from 20 to 90 minutes, and available with machining, casing options, and custom sizing.

Custom Wood Door Manufacturing

Premium Materials. Better Durability. Built to Withstand High-Traffic Environments.

At Boreal Architectural, we specialize in the custom manufacturing of premium solid core and hollow-core wood doors for both residential and commercial applications. Every door we produce is a reflection of fine craftsmanship, engineered performance, and architectural intent.

Whether you're designing luxury residences, hospitality environments, institutional facilities, or modern office spaces — our doors are built to meet the aesthetic and performance demands of your project.

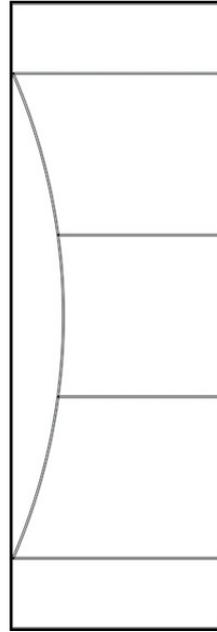

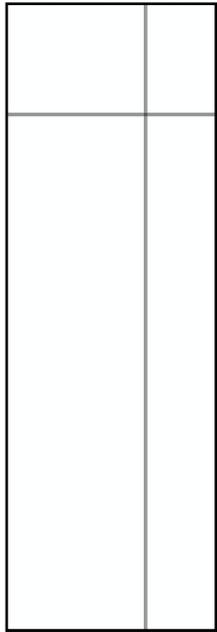

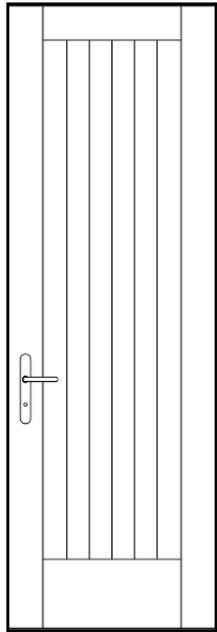

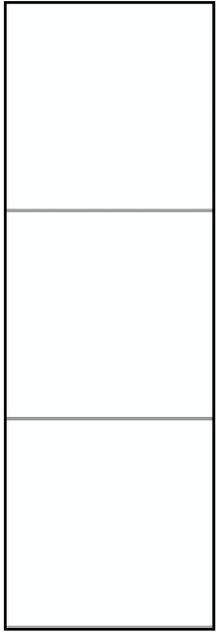

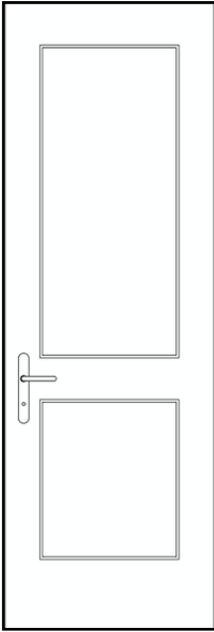

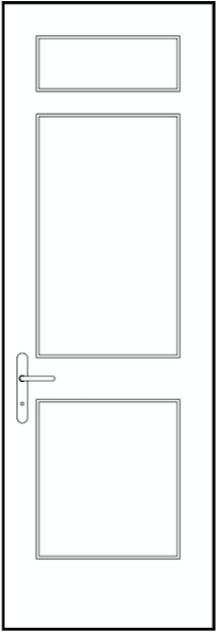

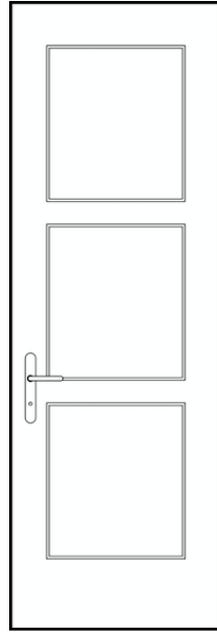

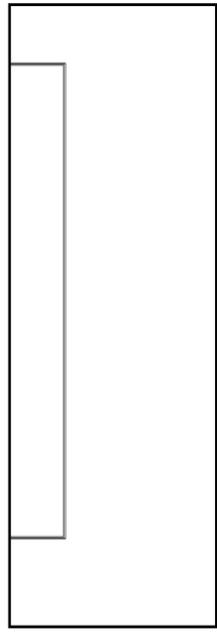

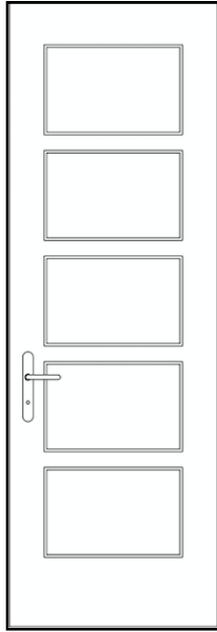

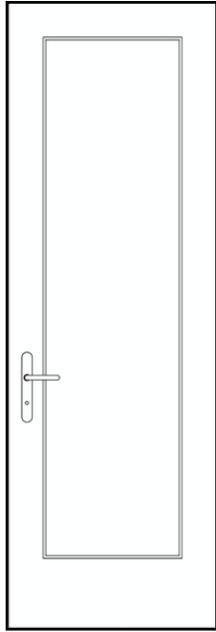

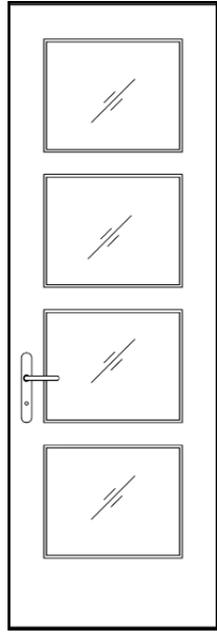

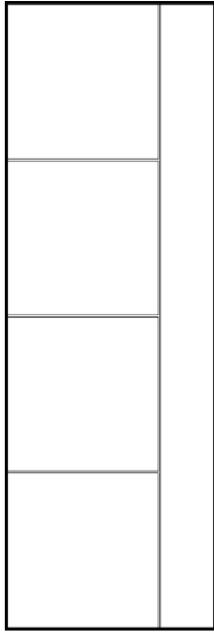

Our Capabilities

- Solid Core & Hollow-Core Wood Doors
- Fire-Rated & Non-Rated Options
- Custom Sizing, Machining & Hardware Preps
- Veneer, Paint-Grade, and High-Pressure Laminate Finishes
- Matching Wood Frames and Architectural Millwork Options
- Made-to-order with short lead times

Applications

- High-End Residential
- Office & Corporate Interiors
- Hospitality & Hotel Rooms
- Healthcare
- Institutional Buildings
- Educational Facilities
- Public Spaces

Traffic Doors

Engineered for High-Traffic Commercial Spaces

At Boreal Architectural, our AeroFlow™ Traffic Door Series is purpose-built for environments where durability, functionality, and visual appeal must coexist. From restaurant kitchens to healthcare corridors, our traffic doors are designed to perform — day in and day out.

Built to Move with Purpose

All Boreal traffic doors are designed for smooth, efficient operation with a focus on performance, safety, and aesthetics. Options include:

- Double-acting swing for easy pass-thru and optimal efficiency
- Stainless steel push plates and kick plates available for increased durability
- Window cut-outs available for added visibility
- Custom sizing and hardware configurations

Wood Traffic Doors

Premium Craftsmanship. Timeless Warmth.

Boreal Wood Traffic Doors combine the elegance of natural wood aesthetics with the strength and functionality required in high-traffic environments. Constructed with a durable solid core and available in custom veneer, laminate, or painted finishes, these doors are ideal for spaces where style and performance are equally important.

Phenolic Traffic Doors

Built for the Toughest Environments.

Our Phenolic Traffic Doors are engineered for performance in demanding, fast-paced commercial settings. Made with 3/4" thick impact-resistant phenolic panels, they offer exceptional durability, moisture resistance, and hygienic properties — perfect for food-service, industrial, and healthcare facilities.

ABS Traffic Doors

Lightweight Strength. Cost-Efficient Performance.

Boreal ABS Traffic Doors offer a strong, economical solution for commercial spaces that demand reliable performance and durability. Featuring a lightweight ABS shell with a high-density foam core, these doors are ideal for service corridors, warehouses, and back-of-house environments where impact resistance and ease of use are essential.

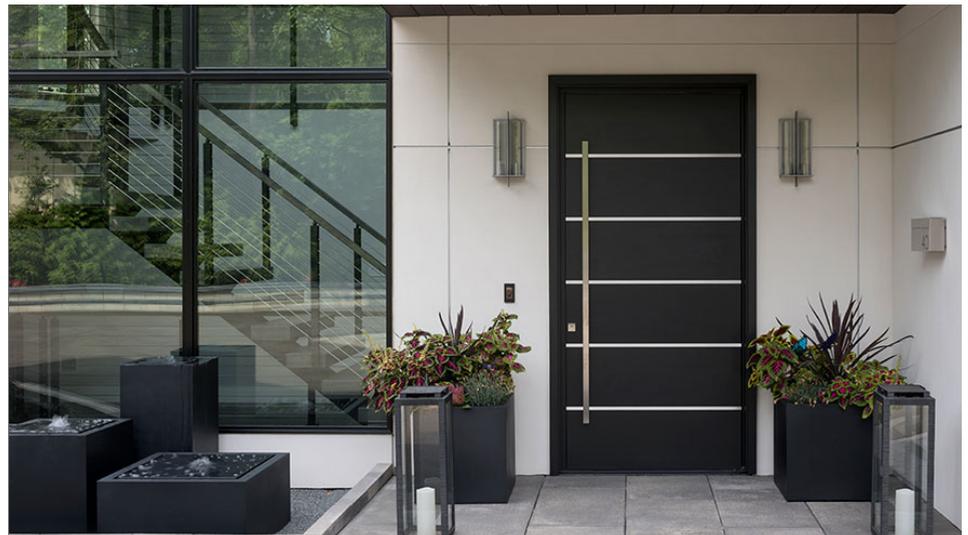

Custom Entrance Doors

Elevate Your Entrance. Define Your Design.

At Boreal Architectural, we believe your front door should make a bold first impression — one that reflects the personality, style, and architecture of the space it welcomes you into. Our Custom Modern Front Wood Doors combine timeless craftsmanship with sleek, minimalist design to create stunning entryways built to stand out.

Each door is expertly handcrafted in Canada using premium-grade hardwoods, engineered cores, and advanced finishing techniques to ensure long-lasting durability, energy efficiency, and unmatched visual impact. Whether you're designing for a luxury residence, a boutique commercial space, or a modern architectural project, we tailor every detail to your vision — from species and stains to hardware and custom glazing.

Modern Exterior Doors

Sleek. Sophisticated. Built to Perform.

Bring modern architecture to life with exterior wood doors that combine bold design with exceptional durability. At Boreal Architectural, our Modern Exterior Wood Doors are custom-built for projects that demand clean lines, refined finishes, and long-lasting performance — without compromising on warmth and natural beauty.

Crafted in Canada using high-quality wood species and engineered construction, our doors are designed to withstand the elements while elevating your exterior aesthetic. From minimalist slabs to bold vertical grains and integrated glass, every detail is carefully tailored to your vision.

Custom Designed. North American Built. Uncompromising Quality.

Wall Panels & Veneer Panelling

Transform Your Space with Architectural Elegance

Create visually stunning environments with Boreal Architectural's premium Wall Panels and Veneer Paneling systems. Designed to bring warmth, texture, and refined character to commercial interiors, our panel systems offer both beauty and function for lobbies, offices, retail spaces, hospitality, and beyond.

Features:

- V-Rib Slat Wall, Shiplap, Classic Slat, Low-Profile Mixed Slat, and Wide Slat Options
- Available in Natural Veneers, Painted Finishes, or Laminated Surfaces
- Precision-Milled for Seamless Installation
- Acoustic-Enhancing Options Available

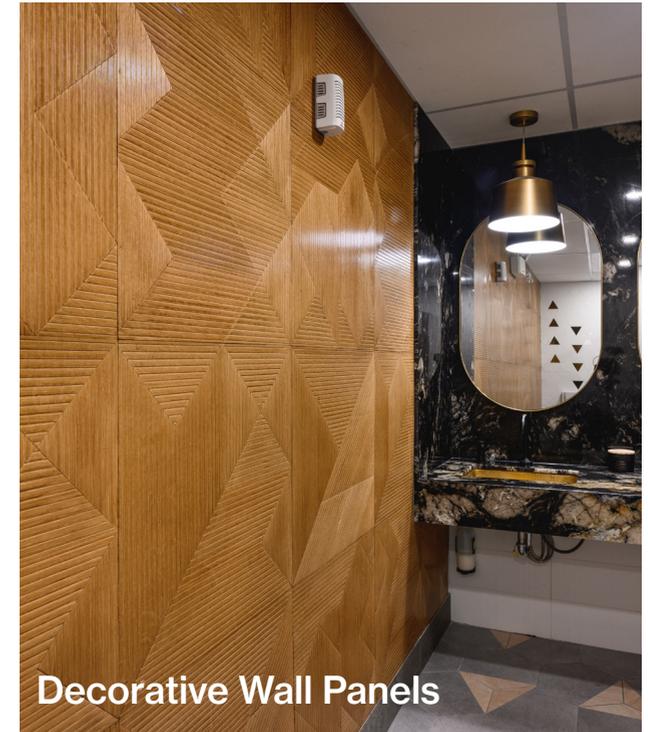

Our veneer paneling solutions are manufactured to meet the highest standards in craftsmanship and durability. Whether you're designing a statement wall or a full interior system, Boreal's wall panels provide the perfect balance of form and function, as well as, match perfectly with Boreal's Architectural Wood Door & Frame systems

Toilet Partition Systems

Engineered Privacy. Optimal Comfort. Built to Last.

Boreal Architectural's Toilet Partition Systems are designed to combine privacy, durability, and architectural style for modern commercial spaces. From the sleek Ultimate Privacy Series—available in both Laminate and Phenolic—to the full-height, floating design of the Aspen Classic and Aspen Elite Series, each line offers a tailored solution for aesthetics and function. For high-traffic and moisture-prone environments, our Phenolic and Elite options provide superior performance, while the Laminate and Classic lines deliver exceptional value with style. We also offer matching Urinal Dividers and Privacy Screens to complete any restroom design with consistency and elegance.

Ultimate Privacy: Laminate Series

Premium, Standard Plastic Laminate Line

The Ultimate Privacy Laminate Series elevates commercial washrooms with a sleek, modern aesthetic and enhanced user comfort. With 72" high doors and panels, 78" high pilasters, and a 6" floor gap, this floor-mounted, overhead-braced system offers a clean, full-height look. Made from $\frac{3}{4}$ " thick premium-grade plastic laminate and paired with stainless steel hardware, it's a durable, stylish, and cost-effective solution for modern spaces.

Ultimate Privacy: Phenolic Series

Premium, Standard Solid Phenolic Line

The Ultimate Privacy Phenolic Series delivers high-performance durability, hygiene, and privacy for demanding commercial environments. Featuring 72" high doors and panels, 78" pilasters, and a 6" floor gap, this near full-height design offers maximum discretion and a modern aesthetic. Constructed from $\frac{3}{4}$ " solid phenolic and finished with premium stainless steel hardware, it's built to withstand moisture, impact, and heavy daily use without compromise.

Aspen Classic Series

Full-Privacy Plastic Laminate Toilet Partitions Line

The Aspen Classic Series blends timeless design with advanced functionality, offering 90" high laminate doors, panels, and pilasters supported by a floor-mounted overhead-braced structure. With a unique pedestal foot design that creates a floating effect, this series delivers elevated elegance and premium stainless steel hardware built for lasting use.

Aspen Elite Series

Full-Privacy Phenolic Toilet Partitions Line

The Aspen Elite Series is built with $\frac{3}{4}$ " thick solid phenolic panels for superior strength and style, perfect for premium commercial spaces. With full-height 90" doors, panels, and pilasters, and a clean pedestal foot detail, this series offers both durability and luxury in high-use, high-end environments.

Urinal Dividers & Privacy Screens

Available in both Plastic Laminate & Solid Phenolic

Our Urinal Dividers and Privacy Screens provide essential privacy solutions for commercial restrooms, available in matching laminate or phenolic finishes. Designed for easy installation and seamless integration with your partition system, these screens offer practical discretion without compromising on style or quality.

Lockers & Storage Systems

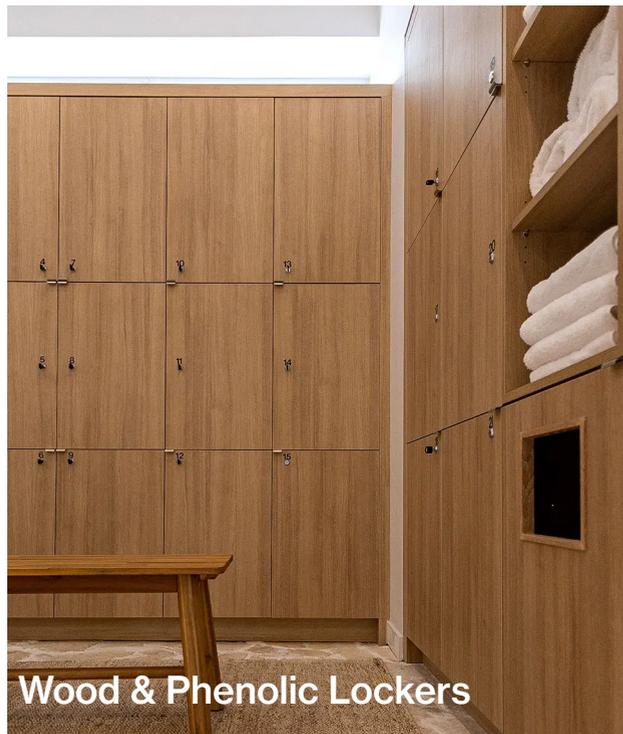

Secure, Stylish, and Space-Efficient Storage Solutions

From schools and gyms to corporate wellness centers and commercial environments, Boreal's Locker and Storage Systems are built to provide long-term durability, customizable configurations, and modern styling.

Features:

- Plastic Laminate & Solid Phenolic Lockers
- Custom-Made Locker Configurations
- ADA-Compliant Locker Systems
- Secure Storage Cabinets for Commercial Use

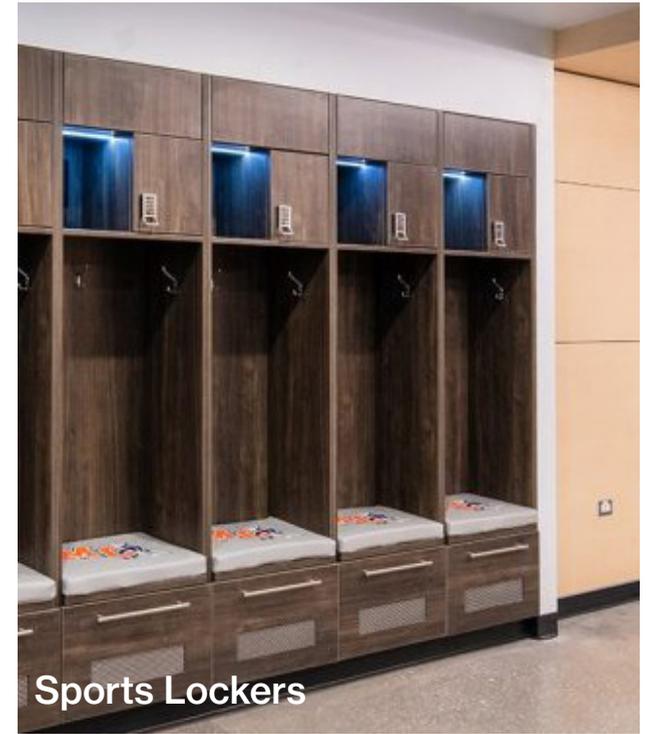

We combine architectural-grade materials with intelligent design to offer lockers that not only stand up to heavy use but also elevate the design of the space they occupy. Choose from a wide range of colors, materials, locking systems, and accessories to match your project's exact needs.
